ATELIER COLLECTIONS BY S.T.DUPONT

UNPARALLELED HERITAGE EXPERTISE SINCE 1872

FROM PATINATED LEATHER...

S.T.Dupont has decided to relaunch a collection of leather goods featuring patinated leather, the colours and contrasts of which call on the Maison's very first form of expertise.
This art of patinating carried out entirely by hand, lends colours shades and contrasts beyond compare, and meticulous attention at every stage.

UNPARALLELED HERITAGE EXPERTISE SINCE 1872

THE ART OF PATINA

This art of patina is carried out entirely by hand. In addition to the secrets of the procedure, it involves meticulous attention at every stage.
The process of skin selection is the very first evidence of this. Only the purest specimens are accepted, which are prepared using a completely natural method of vegetable tanning so that they can reveal the full intensity of the colour. Sourced from mineral pigments only, the colour is then applied with constant care and precision. Like a gentle caress, it heightens the light in its center and produces the rarest and most precious tones.

This meticulous and remarkable stage enhances the contrasts of each object. Each piece acquires its very own, exclusive shade. More than a signature, this is the essence of S.T.Dupont.

UNPARALLELED HERITAGE EXPERTISE SINCE 1953

...TO NATURAL LACQUER

In 2014, S.T.Dupont re-released a cult collection of natural lacquer lighters. Those products incorporate unique ancestral techniques and expertise: the art of "Popoté" used in its atelier in 1953. It consists of applying by hand the natural lacquer in an irregular but meticulously manner to create the Maison's characteristic cloudy effect.

A LEGENDARY SIGNATURE

The Atelier S.T.Dupont collection is stamped with the old S.T.Dupont logo and the winged wheel hallmark. The date 1953 or 1872, references of the ateliers's creation for each specialization is also inscribed on the products.

A UNIQUE COLOUR FOR EACH PRODUCT

While the procedure remains the same for each piece, the result is always different. Depending on the colour contrasts obtained, the handmade production process gives the product its very own depth and soul.

NEW COLLECTIONS ALREADY DESTINED TO BE LEGENDARY
